

Changes

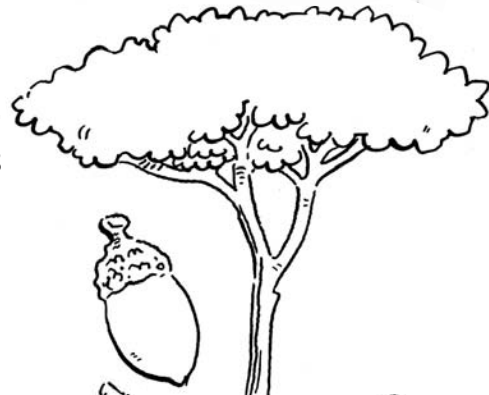

Little kittens change to cats
 And little bloodworms change to gnats.
 Little cubs change into bears
 And leverets change into hares.

Little grubs change to bees
 And little acorns change to trees.
 Chickens change to cocks and hens,
 Cygnets change to cobs and pens.

Little tadpoles change to frogs
 And little puppies change to dogs.
 Calves change into bulls and cows
 And piglets into hogs and sows.

Little kits change into stoats
 And little kids change into goats.
 A caterpillar changes to a butterfly
 They all grow up and so will I.
