

# God’s eyes weavings

Follow these instructions to make your own weaving

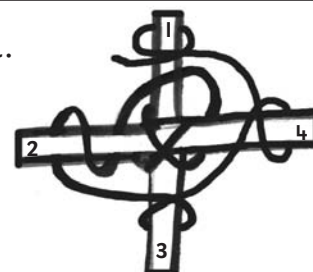

- Secure the sticks with glue and use wool to tie together in an ‘X’.
- Number the sticks, or add a different coloured thread to to each one.

- Bring the wool up from the back to the front between numbers 1 and 4.
- Take the wool over the top of numbers 1 and 2 on first row.
- Take under number 2.
- Wrap over top of number 2.
- Take over top of number 3 and wrap around.

- Take over top of number 4 and wrap around.
- Take over top of number 1 and wrap around.

- Change colour by tying new thread at the back.
- This makes one complete round. Carry on over the top and around again, laying the thread next to the last, not on top.
