Jammed Tractor Maze

In the Jammed Tractor Maze below, you need to imagine that you are a farmer driving a tractor. Suddenly, the steering becomes jammed so that you can only drive straight ahead or turn left – the tractor simply won't turn to the right. Can you find your way from the start (S) to the finish (F)? In this maze you can sometimes get stuck in a corner. If this happens, you must abandon your attempt and start again from the beginning!
