

One-way Mazes

Forwards-only Maze

In the Forwards-only Maze below, you must keep going straight forward whenever you can. If the path curves round a corner then you have to follow it. The only time you get a choice is when you reach a wall blocking your path; only then can you choose to turn left or right. If you have not hit a wall head-on, turning left or right are forbidden turnings. Can you reach the finish (F) from the start (S), following the rules?
