

Westville Town's community

SIMRET SINGH

Westville Primary School Focus Group:

'We need our new school urgently because classrooms are old and cramped and the building is in need of repair. We don't want to be in the centre of town where it is very busy. There must be room for our playing fields.'

EDITH HOLMES

Secretary of the Westville Civic Society:

'We believe there are many interesting archaeological sites buried underneath the buildings in the centre of town. In addition, something needs to be done urgently about the awful traffic problems. We think a one-way system would be best.'

THOMAS HARRISON

Local building contractor:

'Every family seems to have at least two cars these days, so a large car park is needed as close to the centre of town as possible. I am always looking for new building work for my large team of workers. Most of them live in the town.'

ERIC PRICE

Westville shop owner:

'We find our customers are not very keen on walking far in the centre of town. They like to be able to park on the roadside, so they can get in and out of the shops quickly and don't have to carry heavy parcels a long way.'

MANDY FIELD

Local farmer:

'I'm against any new building work. We should modernise what's already there. All the land in the area is being used up too quickly. Soon, there will be hardly any farms at all in the area and farmers like me will be put out of business.'

ADAM FERGUSON

Chairman of Westville Town Football Club:

'Our old ground is too far away from the centre of town and is too small for us now. We want a multi-purpose stadium, but it needs to be close to where the people are so we become better supported.'
