

5-a-side

In a 5-a-side game of football the full-time score was 4:3, with the reds beating the blues. What might the score have been at half time? How many half-time scores can you think of? Have you found them all?

Netball tournament

There are four netball teams: Blues, Reds, Greens and Yellows. They play a tournament where each team must play every other team. How many games need to be played? If an extra team was introduced, how many games would then have to be played?
