

Right direction

Look carefully at the map of Spain below. Madrid is located almost in the centre of the country.

Cut out the compass and place it over Madrid. Moving in a clockwise direction, work out on what point of a compass each place is located. For example, Santander is north of Madrid. Complete the table below.

	Place	Point on compass
	Santander	north
	Barcelona	
	Vinaroz	
	Albacete	
	Malaga	
	Badajoz	
	Ciudad Rodrigo	
	Lugo
